> Good evening,

>

> Sorry I was trying to get the most accurate numbers. The daily burn rate for the 14 people currently there is approx 3000 a day. If all were to remain constant on 8/30 with all the plane tickets, rental cars and per diem we would be at about 84k. I have to switch some people out this week unless we are told to send people home which LT Schmid, on scene, is trying to figure out. If we cut back on folks obviously the burn rate will go down. That's what info I have for you at this very moment.
